

# Guidance for performing spirometry during the COVID-19 pandemic

---

Dear Victoria

The Asthma and Respiratory Foundation NZ has received a number of requests for guidance on performing spirometry in primary health, under the new COVID-19 Protection Framework ('traffic light' system).

We have put together a protocol to follow when performing spirometry, that we hope will be helpful. The advice will be kept under review and updated over time as new data becomes available.

[Read the guidance here](#)

Please also see [COVID-19: Infection prevention and control recommendations for health and disability care workers](#), Ministry of Health website.
